EXECUTIVE SUMMARY:

The EWB India All Chapters Meet – 2026 (AICM 2026) was successfully conducted as a two-day national-level convergence of student and professional chapters of Engineers Without Borders – India, hosted at MLR Institute of Technology (MLRIT), Hyderabad, on 23rd and 24th January 2026. The meet served as a strategic platform to bring together stakeholders from academia, industry, and the EWB ecosystem to deliberate on the evolving role of engineering in sustainable development.

The central theme of the meet, **“Engineering 4.0: Smart Skills for a Sustainable Future,”** reflected the growing importance of emerging technologies such as Artificial Intelligence, data-driven engineering, and interdisciplinary skill development in addressing real-world societal challenges aligned with the Sustainable Development Goals (SDGs).

The event commenced with a formal inauguration, including the lighting of the lamp and addresses by senior leadership from EWB India and the host institution. The inaugural session outlined the vision and objectives of AICM 2026, emphasizing national collaboration, knowledge sharing, and strengthening the impact of EWB chapters across India.

The technical sessions featured expert talks on Responsible AI for Sustainable Development and Data-Driven Engineering 4.0 for Measuring Sustainable Development Goals, delivered by eminent academicians and professionals. These sessions provided participants with insights into how advanced technologies can be ethically and effectively leveraged for social good.

A key highlight of the meet was the chapter presentation sessions, where student and professional chapters from different regions of the country presented their initiatives, project experiences, and best practices. These sessions fostered cross-chapter learning, encouraged collaboration, and showcased the diverse approaches adopted by chapters in addressing community-centric engineering problems.

The second day of the meet focused on impact assessment, case studies, and strategic discussions. A dedicated session on the Impact of EWB India Projects provided participants with a deeper understanding of long-term community engagement and sustainable project implementation. This was followed by a panel discussion on Sustainable Development and Social Responsibility, featuring experts from industry and academia, which enabled meaningful dialogue on giving back to society through engineering interventions.

The meet concluded with a valedictory session that included a keynote address, presentation of appreciation certificates, announcements of recognitions, and closing remarks by the leadership of EWB India. The event successfully reinforced the collective commitment of EWB chapters towards sustainable development, ethical engineering practices, and nationwide collaboration.

Overall, AICM 2026 achieved its objectives of capacity building, networking, and strategic alignment among EWB India chapters, and laid a strong foundation for future initiatives aimed at leveraging engineering expertise for societal impact.

OBJECTIVES:

The primary objectives of the EWB India All Chapters Meet – 2026 were:

- To provide a national platform for interaction and collaboration among EWB India student and professional chapters.
- To strengthen awareness and understanding of Engineering 4.0 concepts and their role in sustainable development.
- To facilitate knowledge sharing of best practices, project outcomes, and community-oriented engineering solutions.
- To build technical, leadership, and ethical competencies among student members.
- To align chapter activities with EWB India's mission and the United Nations Sustainable Development Goals (SDGs).
- To encourage long-term inter-chapter cooperation and mentorship between academic and professional chapters.

IMPACT ASSESSMENT:

Enhanced awareness and application of Engineering 4.0, Responsible AI, and data-driven approaches for sustainable development.

Strengthened technical, leadership, and collaborative skills through inter-chapter knowledge exchange.

ALIGNMENT WITH SUSTAINABLE DEVELOPMENT GOALS

CHRONOLOGICAL PROCEEDINGS OF THE EVENT:

10TH ALL INDIA CHAPTER MEET(AICM) - 2026

MLR Institute of Technology (MLRIT), Hyderabad

JANUARY 23 - 24, 2026

DAY 1: 23.01.2005 (FRIDAY)	
0800	Arrival / Breakfast
0900 - 1000	Registration
1000 - 1040	Inauguration
1040 - 1100	Tea Break
SESSION - I	
1100 - 1130	Responsible AI for Sustainable Development The session focused on Responsible AI aligned with human values and societal well-being, emphasizing humans in the loop for ethical decision-making. Case studies including a Delhi citizen identifying and outsmarting an online scam and the comparison of Stein–Erik Seelberg’s kinship approach with ChatGPT-based systems illustrated issues of accountability and oversight. Key principles such as transparency, explainability, auditability, safety, and proportionality were highlighted as essential for sustainable AI deployment. Resource Person: Prof. Syeda Sameen Fatima Anurag University
1130 - 1145	Engineers Without Borders - DTU Student Chapter EWB-DTU Chapter presented multidisciplinary engineering projects, including a furnace design with CCDCR–DTU, a jacket design with CEEW, a sanitary napkin project, and outcomes from the visit of the EWB Australia President.
1145 - 1200	Engineers Without Borders - SITRC Student Chapter

	EWB – SITRC Chapter presented a Digital Literacy Campaign for grades 4–8, covering hands-on computer sessions, responsible internet use, and educational software, while fostering volunteer engagement and leadership development.
1200 - 1215	Engineers Without Borders - MKCE Student Chapter EWB - MKCE Chapter presented the fabrication of three dirt bikes (100 cc and 80 cc) and highlighted their success in winning various competitions.
1215 - 1230	Engineers Without Borders - CBIT Student Chapter EWB - CBIT Hyderabad Chapter presented key initiatives, including 10 years of community collaborations, flood donation camps, e-learning, donation drives, and a collaboration with EWB Switzerland, highlighting sustained social and technical impact.
1230 - 1245	Engineers Without Borders India Mumbai Professional Chapter EWB Mumbai Professional Chapter Presented on sustainable infrastructure projects addressing water, sanitation, energy access, and digital education in underserved areas. Key activities include constructing 500+ toilet blocks, deploying solar-biogas systems, coastal cleanups, and IT asset distribution for rural communities. The chapter partners with corporates and student groups to deliver waste-to-energy solutions and rural electrification initiatives. These efforts align with EWB-India's humanitarian engineering goals, emphasizing professional volunteer impact on UN SDGs.
1245 - 1400	Lunch Break
SESSION - II	
1400 - 1430	Data - Driven Engineering 4.0 for Measuring Sustainable Goal Development The Session focused on Industry 4.0–based digital transformation, highlighting the use of Digital Twins, IoT sensors, Cyber-Physical Systems (CPS), AI/ML algorithms, and real-time data acquisition for intelligent engineering systems. It emphasizes predictive maintenance, fault

	diagnosis, simulation-based decision making, and data analytics to improve efficiency and reliability. The transition from traditional reactive systems to smart, adaptive, and connected manufacturing frameworks is a central focus, enabling optimized performance and reduced downtime. Resource Person: Prof Tilottama Goswami Vasavi College of Engineering, Hyderabad
1430 - 1445	Engineers Without Borders - HITAM Student Chapter (IUCEE - EWB HITAM Student Chapter) The EWB–HITAM Student Chapter reported activities including InnoFiesta 2024, research paper writing, conference participation, AUNSF 2.0, Project Expo-I (Design Thinking), and Think Sprint initiatives. Community engagement efforts comprised NGO visits (Akshaya Patra Foundation), school and rural outreach programs, and Akshaya Kalpa farm visits, focusing on education and sustainability. The chapter also highlighted its association with IUCEE–EWB and international interaction with EWB East Africa, demonstrating academic, social, and global engagement.
1445 - 1500	Engineers Without Borders - KLS GIT Student Chapter The EWB – KLS Gogte Institute of Technology Student Chapter presented Domain Drive 2025, featuring technical activities in AI, Web Development, and Cyber Security, along with structured collaborative events such as Pair & Pitch to encourage ideation and teamwork. As part of its outreach initiatives, the chapter conducted cybercrime awareness presentations during school visits, fostering early awareness and inspiring startup-oriented thinking among students. The chapter also worked on a project focused on an integrated food supplement and waste management system, addressing sustainability and social impact. In addition, workshops on entrepreneurship were organized to nurture innovation and problem-solving skills. Community engagement activities included visits to the Mahesh Foundation, Engineer’s Day observances, and student induction programs, reinforcing social awareness and active student participation

1500 - 1515	Engineers Without Borders - SVCE Student Chapter The chapter presented the membership status, Events & Projects of the AY2425, Events & Projects of the AY2526, Initiative of the year and the future goals. Click here to view the presentation
1515 - 1530	Engineers Without Borders - MLRIT Student Chapter The EWB – MLRIT Student Chapter reported the awareness programs conducted for the International Day of Education and National Education Day, emphasizing the importance of inclusive and quality education. The chapter also conducted Women’s Day celebrations and an HDSE workshop, focusing on skill development and student engagement.
1530 - 1545	Engineers Without Borders India Hyderabad Professional Chapter The EWB Hyderabad Professional Chapter presented its key community-focused initiatives, including the establishment of e-Learning Centers to improve access to digital education. The chapter highlighted grey water filtration projects aimed at sustainable water reuse and sanitation improvement. In collaboration with the Helping Hands NGO, the chapter also implemented bunker bed solutions to support shelter and basic living needs. These initiatives demonstrate the application of engineering solutions to address education, water sustainability, and social welfare challenges.
1545 - 1700	Tea Break
1700 - 1900	Cultural Program
1900 - 2000	Dinner
DAY 2: 24.01.2005 (SATURDAY)	
0800 - 0900	Breakfast
SESSION - III	
0900 - 0915	Engineers Without Borders - KGR CET Student Chapter

	The EWB – KGR CET Student Chapter showcased technical engagement like Fusion 360 and sustainability initiatives such as Waste to Wow and paddy dryer innovation. The chapter also emphasized Partner Village outreach and conducted a grassroots innovation walk with Palle Srujana NGO, demonstrating community immersion and problem identification in rural contexts.
0915 - 0930	Engineers Without Borders - SITRC Student Chapter EWB - SITRC Student Chapter Presented a digital literacy program for SHG women, including homemakers, to enhance digital skills, socio-economic participation, and community engagement.
0930 - 0945	A Case Study - Impact of EWB India Projects Kasturba Gandhi National Memorial Trust (KGNMT) Engineers Without Borders - India, in collaboration with partners including Pratt & Whitney and UTC, has executed development projects at the KGNMT in Hyderabad, focusing on improving infrastructure and quality of life for women and children. The EWB-India Hyderabad Chapter has supported the construction and expansion of residential facilities, dining and kitchen spaces, and learning resources, enhancing living conditions and educational opportunities for beneficiaries. These interventions have been backed by engineering design, resource mobilization, and community-oriented solutions, aligning with EWB-India's mission of inclusive socio-economic development and empowerment through practical, sustainable engineering initiatives. Resource Person: Mr. PRK Murthy Resident Manager, KGNMT
1000 - 1100	Panel Discussion Topic: Sustainable Development - Give Something Back to the Society Panellists: Ms Ashwarya Samala

	Audit Professional, Founder D2C, Hyderabad Mr Anil Rai Technical Director, Enterprise Capabilities India, Mumbai Moderator: Dr. Shaukat Mirza Vice Chairman, Engineers Without Borders India The panel discussion highlighted the importance of technology, education, and ethical business practices in driving sustainable development. The speakers collectively emphasized the need to give back to society through responsible and impactful initiatives.
1100 - 1115	Tea Break
1115 - 1215	Valedictory, Group pic
1300	END OF 10th AICM - 2026

CONCLUSION AND FEEDBACK FROM PARTICIPANTS:

As the EWB – SVCE Student Chapter, our participation in the 10th All India Chapters Meet (AICM) 2026 at MLR Institute of Technology, Hyderabad, was highly enriching and insightful. Over the two-day national-level convergence, we engaged with student and professional chapters from across India, gaining exposure to innovative community projects, sustainable engineering solutions, and the practical application of Engineering 4.0 skills for societal impact.

The sessions on Responsible AI and Data-Driven Engineering 4.0, along with chapter presentations and case studies, provided valuable insights into how engineering interventions can be effectively aligned with the Sustainable Development Goals (SDGs). Interactions with peers and experts enhanced our understanding of ethical, collaborative, and technically sound approaches to solving real-world community challenges.

Participation in panel discussions, networking activities strengthened our chapter's perspective on sustainability, leadership, and social responsibility. The meet has motivated the SVCE Student Chapter to further innovate, implement impactful projects, and contribute meaningfully to the communities we serve.

Overall, AICM 2026 served as a platform for learning, collaboration, and inspiration, reinforcing the collective commitment of EWB chapters to drive sustainable, inclusive, and socially responsible engineering solutions across India.

ANNEXURE - I

PARTICIPANT LIST

S/NO	NAME	YR - DEPT	POSITION
1.	SHRUTHI V	IV - BT	PRESIDENT
2.	RESHMA R	IV - BT	MEMBER
3.	AKSHAY V	III - ME	VICE PRESIDENT
4.	GAYATHRI R	III - ME	GENERAL SECRETARY
5.	SHUJAH FALEHAH MARIAM	III - BT	EVENT DIRECTOR
