Calibration'25

The Hidden Trail

GENERAL DESCRIPTION

- The Treasure Hunt is a dynamic and engaging activity designed to test participants' problem-solving, teamwork, and quick-thinking skills.
- Teams will be challenged to crack riddles and puzzles that lead them across different locations. Each stop brings a new clue, a tougher challenge, and the chance to move one step closer to victory.
- At every location, teams must carefully collect the chit that matches their assigned theme. With only a limited time on the clock, speed, accuracy, and coordination will play a crucial role in completing the hunt.
- The race isn't just about reaching the finish line — it's about strategy, unity, and staying sharp under pressure. Only the fastest and most focused teams will emerge as winners.

**Crack clues! collect chits!
and finish before time runs out!!**

SVCE

Calibration'25

The Hidden Trail

RULES AND REGULATIONS

- Teams can have up to 4 members and will be assigned either a technical or non-technical theme.
- Riddles and puzzles must be solved to move between locations.
- At each stop, teams must pick only the chit matching their theme. A total of 5 theme-based chits must be collected within 10 minutes to complete the hunt.
- Winners will be the top 3 teams who collect all 5 correct chits in the shortest time.
- Tampering with or hiding chits, splitting up, or any unfair play will result in disqualification.
- The organizers' decision will be final in case of disputes.

**Think as one! move as a crew!
five chits to find and the winners are you!**

The EWB SVCE Student Chapter conducted an exciting calibration event titled “The Hidden Trail” on 19th September 2025. Designed as a treasure hunt with a twist, the event aimed to foster teamwork, problem-solving, and quick thinking among first-year students. The activity involved unraveling riddles, decoding symbols, and hunting for answers across different locations in Block 5.

Event Flow

- Each team comprised 2–5 first-year participants.
- Teams began the challenge at Room 524 (Second Floor), where they picked a theme from the EWB members.
- Their timing officially started once the first location was revealed.
- At each location, participants had to:
 1. Identify the symbol given.
 2. Find the hidden gift box.
 3. Solve the riddle/question related to their chosen theme.
 4. Search inside the box for the folded chits containing pictures of possible answers.
 5. Identify the correct answer, capture its image as proof, and proceed to the next location.

A total of five locations were included in the hunt:

- Location 1 – 5th block back entrance - Anchor
- Location 2 - 1st Floor Balcony - Hammer
- Location 3 - Garden - Bolt
- Location 4 - civil dept exit - Japanese character
- Location 5 – Room 521 – Skull

Once all five answers were collected and photographed, participants returned to Room 524, where EWB volunteers verified their submissions and recorded the total time taken. The team completing the hunt in the shortest time was declared the winner.

The event commenced at 10:45 a.m. and concluded at 2:45 p.m., witnessing the enthusiastic participation of 29 teams. Each team actively engaged in the challenges with great energy and spirit. The lively participation created an energetic and vibrant atmosphere throughout Block 5, making the event both interactive and memorable.

Out of the 29 teams, three teams emerged victorious with the Fantastic Four securing the 1st position, Civil Payalunga coming in 2nd, and Harry Potter bagging the 3rd place. The event successfully engaged students in a blend of fun, logic, and teamwork, making it both interactive and intellectually stimulating.

“The Hidden Trail” proved to be a highly engaging and well-received event. By combining elements of a treasure hunt with technical riddles, the activity not only entertained but also encouraged analytical thinking and collaboration among the first-year participants.

FEEDBACK FROM PARTICIPANTS

What was your favorite part of the event?

1. Running and searching for gift box
2. Searching that box for our paper was kinda fun
3. Running
4. I really like running to find the clues and solving the riddles and finding the answers it was super fun and entertaining.
5. Very very interesting game in the calibs. I love the game very very much.i felt this was the most fantastic game that I had played in calibs.
6. Finding the golden box and answer the questions quickly was my favorite part of the event
7. Running up and down, here and there to complete the game as soon as possible.
8. Finding the movie names and finding the boxes
9. Searching for box

What do you think we could improve for next time?

1. Clarifying the time limit
2. Since two of our team members were not familiar with Hindi movies, it took us extra time to identify the movie, while the other team, who had Kollywood as their theme, gained a slight lead. In the future, it would be helpful if teams could directly choose the theme they are most comfortable with..
3. Nothing else
4. The game was perfectly planned and executed.
5. Not giving the same symbol(anchor, Chinese letter)for all the teams bcoz it will be challenging for first team but then 2nd team can easily identify the symbols on seeing first team,the last team can very very easily identify where it is
6. Actually we need to find 5 pictures and we need to find first picture in ground floor and 2nd one in 2nd floor and again ground floor... It maybe easy to boys... But not for girls... Ok but it's so interesting...
7. Make the puzzle tougher
8. Though we are quick, Volunteers are wasting time by searching the riddle, answer of photographs.
9. Perfect game Nothing to improve

S.P. Sivagnana Subramanian
