

Engineers Without Borders – SVCE Student Chapter

THINK TANK THURSDAY

Event Report

28th August 2025

The *Think Tank Thursday*, a community meetup for Engineers Without Borders (EWB) members was successfully organized with the aim of fostering discussion on cutting-edge technology and current affairs. The session commenced at 3:40 PM, with the President, **Shruti V**, delivering a brief overview of the club's vision and activities. This was followed by the Vice President, **Akshay V**, who shared updates on the ongoing projects and their progress.

Each participant then introduced themselves, highlighting their individual research interests. During this session, **Nivethetha V**, a student from the Biotech department, proposed a project idea under the domain of *bioprocess engineering*. The project focused on optimizing cleaning methods for bioreactors to significantly reduce the downtime between processes from 24 hours to 4–6 hours, thereby enhancing efficiency.

Following the introductions, members were divided into groups of two and given a real-world problem statement to deliberate on:

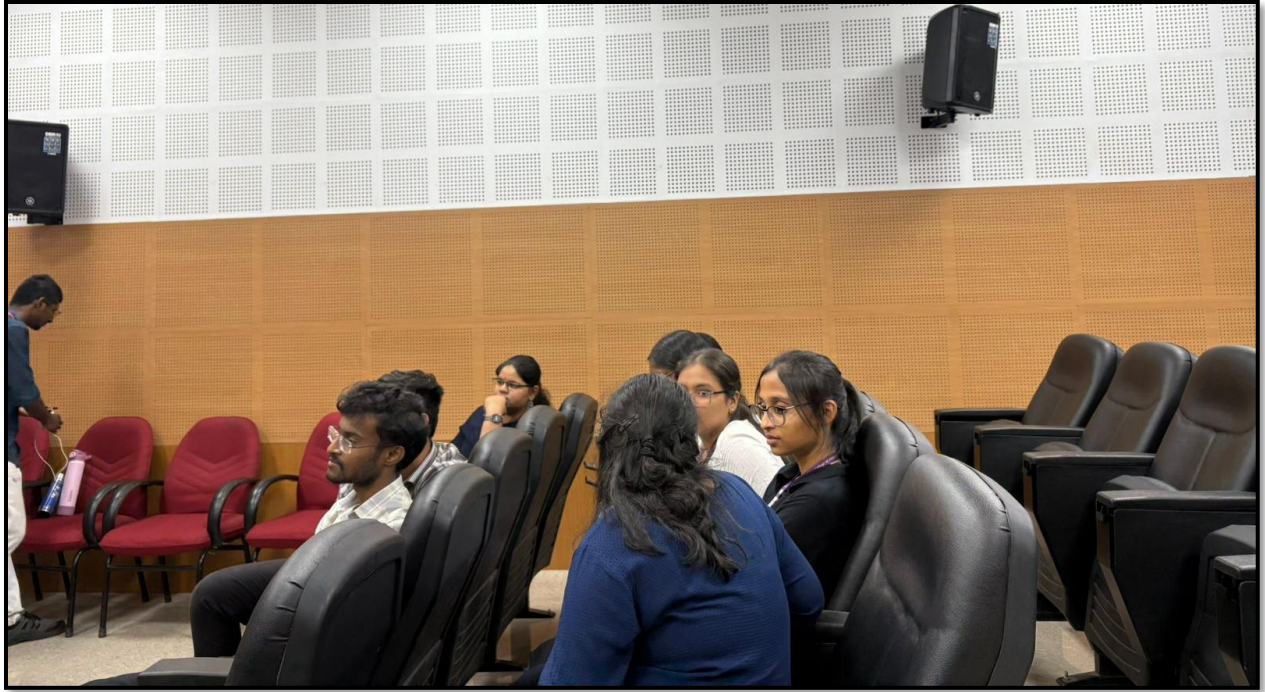

Problem: *Flood & Water Quality Crisis* – Every monsoon, areas such as Velachery, Saidapet, and Tambaram experience severe flooding. Stagnant water worsens outbreaks of dengue, cholera, and typhoid.

The groups were given 5 minutes to brainstorm solutions and 2 minutes to pitch their ideas. The participants proposed a variety of innovative solutions, including:

- Designing roads with porous materials to allow rainwater absorption and gradual evaporation.
- Constructing underground water purification units capable of storing and treating floodwater for safe usage.

The discussion also included an evaluation of the *pros and cons* of each solution, sparking meaningful debate and critical analysis among the participants.

The meeting concluded at 4:25 PM, with members expressing enthusiasm for continuing such collaborative sessions that merge creativity with problem-solving to address real-world challenges.

Attendees

S. No	Name	Year - Department
1	Shruti V	IV - BT
2	Akshay V	III - ME
3	Gokul S	II - BT
4	Palani R	II - ME
5	Shujah Mariam	III - BT
6	Shanjana B	III - BT
7	Sudesh Pillai	III - ECE
8	Hirthik Mageshkumar	II - BT
9	Srijan L	II - ME
10	Janani Prakash	II - CSE
11	Sarabheswaran E S	II - ECE
12	Dharani.D	II - BT
13	Isaiah Israel	II - MN
14	Sri Ram R	II - AD
15	Nivethetha V	II - BT
16	Thannigaipriya P S	II - EEE
17	Surya	II - ECE
18	Varunan	II - ECE
19	Nandha Gopal B	II - ECE
20	Bharath	II - CSE

Feedback from Members

What part of the session did you find most engaging or useful?

3 responses

the brainstorming session

Introduction

That small competition between two teams, and a discussion held within a team and also the solutions given by both of us

What improvements would you suggest for future Think Tank Thursday sessions?

3 responses

bit more organised sessions with fun as well as interactive sessions

Good

None

ADDITIONAL COMMENTS

- Snacks for participants – Rs. 60/- spent (balance from cash withdrawn for Inauguration'25)
